Structured design and development (Yourdon and Constantine 1975), diagrammed in Figure 1.6, involves decomposing larger processes into smaller ones. Designers break down larger processes into smaller ones to reduce complexity and increase reusability. Structured design addresses the behavior portion of a software

Computer science - Wikipedia

Structured Programming Approach, as the word suggests, can be defined as a programming approach in which the program is made as a single structure. It means that the code will execute the instruction by instruction one after the other. It doesn't support the possibility of jumping from one instruction to some
