## **Manual Lawn Roller**

The model from Goplus is both a tow roller and a manual roller. And though it offers easy conversion, we much more like this gardening tool as a manual roller. For starters, the product comes equipped with a convenient U-shaped handle. The shape and the length of the handle make it easier to push and pull the roller in a standing position.

a heavier roller would benefit the mower by anchoring it more firmly on the lawn, and some guidance would be useful on setting up the cutting height. The mower has a range of cutting heights, but setting the mower too short not only makes it very difficult to push, but means it can also easily scalp the lawn.
