### Professional Standards Competence And Capability

1 Professional standards, competence and capability Stan Lester 1 Stan Lester Developments, Taunton UK The final version of this paper is in Higher Education, Skills and Work-based Learning 4 (1). Author s copyright reserved. Abstract Standards and frameworks concerned with competence broadly, the ability to do are increasingly being used in professions, generally though not exclusively associated with the function of signing practitioners off as fit to practise.

### Professional standards, competence and capability - PDF ...

Professional standards frameworks are informed by several different approaches to competence, although an external or activity-based approach – similar in principle to that used in UK occupational standards – predominates. However, there are limits to the extent to which a competence-based approach can adequately represent complex professional work, and there is scope to improve the relevance and robustness of frameworks through introducing the idea of capability.
